

ClearAlert™ Warm

SENSITECH®

Clear visual alert when temperatures have exceeded specified temperature thresholds

Monitor temperatures cost effectively at the package level with irreversible, chemical indicators.

Satisfy regulatory expectations. New global guidance focuses on full supply chain integrity—demonstrating control throughout the entire supply chain through to the end user—for all drug products with published label storage requirements.

ClearAlert™ Warm uses threshold technology. The irreversible color change is fast and clear, turning from white to pink/red precisely when the temperature exceeds the specific set point. ClearAlert Warm labels can be adhered to the item being monitored at any level of packaging configuration.

- Single-event, temperature threshold indicator
- Small form factor suitable for case, box, carton or unit-level applications
- Fast-acting, obvious and irreversible color change
- Process and lot validated
- Easy to implement, self-activating
- Green materials—non-hazard and non-toxic
- REACH Compliant¹

Product Specifications	
Operating Range	25°C to 80°C
Standard Thresholds	(°C) 25, 30, 40, 42, 45, 50
Accuracy / Shelf Life	±1°C / 2 year shelf life
Size	31.75mm x 12.7mm (±0.7874mm) 1.250" x 0.5" (±0.031")
Packaging Material	Clear, water-resistant acrylic tape on front Permanent acrylic adhesive backing Paper substrate

(Actual size)

Packaging / Shipping Considerations

- Store below 22°C and avoid direct sunlight during storage to prevent accidental activation
- Shipped on rolls of 5,000 units per roll (3"/7.62cm core x 7"/17.78cm diameter)
- 36"/91.44cm leader is applied to each roll (±4"/10.16cm); unwind direction #1
- 8 rolls per standard shipping carton (8"/20.32cm x 8"/20.32cm x 8"/20.32cm) separated by cardboard
- Expedited shipping

Sensitech Inc. is a leading provider of supply and cold chain visibility solutions that enable our customers—global leaders in the food, life sciences, and industrial markets—to track, monitor and protect the quality and integrity of their temperature-sensitive products across complex supply chains. Through its logistics security division, FreightWatch International, Sensitech also offers origin-to-destination services that provide customers with real-time cargo transparency, helping them to mitigate such risks as theft, diversion, counterfeiting, and chain of custody. Sensitech Inc. is an ISO 9001:2008 company based in Beverly, Mass., with more than 30 sales, service and distribution locations around the world. Sensitech is a part of UTC Climate, Controls & Security, a unit of United Technologies Corp., a leading provider to the aerospace and building systems industries worldwide.
